# AND SEALS RAW MATERIALS

# SUPPLIER

## Your Trusted Supplier

TW Metals supports the Pumps, Valves and Seals industry with a wide range of material including stainless steel, nickel, aluminum, and carbon alloy.

We offer a host of services to meet your needs such as honing, grinding and water jet cutting. In addition, our nationwide delivery system and customized materials management programs help ensure that our customers will have material when and where they need it. We take pride in our ability to complete a bill of materials in product forms encompassing tube, pipe, rod, bar and plate.

Join our customer portal! Get your documents, check inventory and place orders online! Go to our website to learn more!

## Value Added Services

- ✓ Cut to length
- ✓ JIT/KANBAN
- ✓ Deburr/end finishing
- ✓ Electropolished ID
- ✓ Heat treat
- ✓ Tube bending
- ✓ Trepanning
- ✓ Non destructive testing (Eddy-current testing and UT inspection)
